

**Important tips
to make the
most of your
Wellness
Package:**

~Bring your pet for every vaccination appointment scheduled. We work hard to keep your pet's immunity to these potentially deadly diseases as high as possible.

~Don't forget to give your pet's medications as prescribed.

~Ask questions! We are here to help. We welcome the opportunity to become your "other family doctor".

~Remember, you must use all of your wellness package items within 12 months of purchasing the package.

Puppy Wellness Package

What is a Wellness Package?

Our wellness packages are designed to give you discounts on services that we consider essential to keep your puppy healthy. It is our way of helping make pet health care more affordable.

It is important to understand that the wellness package **is not insurance**. It is a bundle of services intended to provide your puppy with vaccinations and routine diagnostic testing, as well as a discount on surgery for a spay or neuter.

Our goal is to help you take the best possible care of your new puppy. In doing this, we hope you will entrust your pet's life long care to us.
