

# Puppy Wellness Package

What is a  
wellness  
package?

Our wellness packages are designed to give you discounts on services that we consider essential during your puppy's first year of life. It is our way of helping make pet healthcare more affordable.

It is important to understand that the wellness package is not insurance. It is a bundle of services intended to provide your puppy with vaccinations, routine diagnostic testing, and a discount on surgery for a spay or neuter if you choose.

Our goal is to help you take the best possible care of your new puppy. In doing this, we hope you will entrust your pet's lifelong care to us.

**\*\*Remember, you must use all of your wellness package items within 12 months of purchasing the package.**

## What is included?

### Vaccinations

- Rabies (1)
- Distemper (up to 3)
- Bordetella (1)
- Lyme (2)
- Leptospirosis (2)

### Additional Benefits

- Three nail trims (3)
- Fecal parasite exam (2)
- Dewormer (1)
- Heartworm/Tick disease test (1)
- Proheart 6 injection (heartworm prevention that lasts 6 months)(1)
- 50% off all regularly scheduled and urgent care exams
