

Adult Dog Wellness Package

What is a wellness package?

Our wellness packages are designed to give discounts on services that we consider essential during your adult dog's life. It is our way of helping make pet healthcare more affordable.

It is important to understand that the wellness package is not insurance. It is a bundle of services intended to provide your dog with vaccinations, routine diagnostic testing, and a discount on a dental cleaning if your pet needs one.

Our goal is to help you take the best possible care of your dog. In doing this, we hope you will entrust your pet's lifelong care to us.

****Remember, you must use all of your wellness package items within 12 months of purchasing the package.**

What is included?
